Security Certificate

We hereby confirm

Bosch Security Systems B.V
Torenallee 49
5600 JB Eindhoven
Nederland

successfully passed the Pentest of DICENTIS Hybrid Meetings on December 22, 2023. The Pentest was focused on the API used to connect to DICENTIS Hybrid Meetings.

No vulnerabilities with critical or high severity were identified. The detailed results of the test object concerned can be found in report 2023-Bosch Security Systems B.V-001-v1.0.

The certificate issued applies to the test objects considered and confirms the circumstances given at the time of the security check. We recommend repeating the check annually or subsequent to relevant change.

As an accredited assessor, usd AG advises and certifies companies worldwide according to the specifications of the credit card industry. The experts at usd HeroLab identify vulnerabilities in IT systems and applications. usd security consultants advise companies holistically on questions of information security, risk management, and IT compliance. The CST Academy promotes exchange and knowledge transfer.
