Specially designed and tuned for applications requiring surveillance in scenes with varying light levels, the AUTODOME IP starlight 5000i camera has an integrated 30X optical zoom to identify people at a maximum distance of 183 m (600 ft) with minimal loss of detail.

**Functions**

**Low-light performance**
The latest sensor technology, combined with sophisticated noise suppression and a High dynamic range of 120 dB, results in an exceptional sensitivity in color. The camera continues to provide excellent color performance even with a minimum of ambient light.

**Pre-programmed user modes**
The camera has several pre-configured scene modes with the best settings for various applications. With one click, users can optimize image settings to match the camera’s lighting conditions. Users can also configure individual image settings.
- Standard: For indoor fluorescent lighting.
- Sodium-lighting: For scenarios where the video is captured under sunlight in the day or under sodium vapor lamp at night.

- Vibrant: For enhanced contrast, sharpness, and saturation

**H.265 high-efficiency video encoding**
The camera is designed on the most efficient and powerful H.264 and H.265/HEVC encoding platform. The camera is capable of delivering high-quality and high-resolution video with very low network load. With a doubling of encoding efficiency, H.265 is the new compression standard of choice for IP video surveillance systems.

**Intelligent streaming**
Smart encoding capabilities, together with Intelligent Dynamic Noise Reduction technology and analytics, make the bandwidth consumption drop to extremely low levels. Only relevant information in the scene, such as motion or objects found with the analytics, are encoded.

**Support for H.264 and H.265 with Encoder Regions**
Set a region in the field of view and define a specific encoder profile to it. This setting reduces the bitrate of the stream further than intelligent streaming alone.
Recording and storage management
Recording management can be controlled by the Bosch Video Recording Manager application, or the camera can use local storage and iSCSI targets directly without any recording software. A memory card with a maximum of 32 GB (microSDHC) / 2 TB (microSDXC) can be used for recording “at the edge” or for Automatic Network Replenishment (ANR) technology to improve the overall recording reliability. Pre-alarm recording in RAM reduces bandwidth consumption on the network and extends the effective life of the memory card.

Stratocast™ service from Genetec
The camera provides Stratocast service, which records video in the cloud, eliminating the need to install servers on-site.

Essential Video Analytics on the edge
The camera includes the latest release of Essential Video Analytics application from Bosch for use on Pre-positions. The Essential Video Analytics application provides reliable video analytics for small and medium business, large retail stores, commercial buildings, and warehouses. Advanced tasks like multiple line crossing, loitering, idle / removed object detection, crowd density estimation, occupancy and people counting are available for live alarming and forensic search. Object filters based on size, speed, direction, aspect ratio, and color can be defined. A simplified calibration mode reduces installation time significantly, because you only need to enter the installation height once for each camera, independent of pre-positions. After the camera is calibrated, the analytics engine can automatically classify objects as upright person, car, bike, or truck.

Sophisticated alarm responses
The camera supports advanced alarm control that uses sophisticated rules-based logic to determine how to manage alarms. In its most basic form, a “rule” could define which input(s) should activate which output(s). In a more complex form, inputs and outputs can be combined with pre-defined or user-specified commands to perform advanced camera functions.

Superior privacy masking
The camera allows for a total of 32 individual privacy masks, with up to eight masks displayed in the same scene. Each mask can be programmed with eight corners. Each mask changes size and shape smoothly and quickly, ensuring that the covered object cannot be seen. With the AUTO Privacy Mask, the color of the Privacy Mask will adapt to the color of the surroundings.

DORI coverage
DORI (Detect, Observe, Recognize, Identify) is a standard system (EN-62676-4) for defining the ability of a camera to distinguish persons or objects within a covered area. The maximum distance at which a camera/lens combination can meet these criteria is shown below:

<table>
<thead>
<tr>
<th>DORI definition</th>
<th>WIDE 1X</th>
<th>TELE 30X</th>
</tr>
</thead>
<tbody>
<tr>
<td>Detect</td>
<td>25 px/m (8 px/ft)</td>
<td>65 m (213 ft)</td>
</tr>
<tr>
<td>Observe</td>
<td>63 px/m (19 px/ft)</td>
<td>26 m (85 ft)</td>
</tr>
<tr>
<td>Recognize</td>
<td>125 px/m (38 px/ft)</td>
<td>13 m (43 ft)</td>
</tr>
<tr>
<td>Identify</td>
<td>250 px/m (76 px/ft)</td>
<td>7 m (23 ft)</td>
</tr>
</tbody>
</table>

Data security
Special measures are necessary to ensure the highest level of security for device access and data transport. On initial setup, the camera is only accessible over secure channels. You must set a service-level password in order to access camera functions. Web browser and viewing client access can be protected using HTTPS or other secure protocols that support state-of-the-art TLS 1.2 protocol with updated cipher suites including AES encryption with 256 bit keys. No software can be installed in the camera, and only authenticated firmware can be uploaded. A three-level password protection with security recommendations allows users to customize device access. Network and device access can be protected using 802.1x network authentication with EAP/TLS protocol. Superior protection from malicious attacks is guaranteed by the Embedded Login Firewall, on-board Trusted Platform Module (TPM) and Public Key Infrastructure (PKI) support. The advanced certificate handling offers:
- Self-signed unique certificates automatically created when required
- Client and server certificates for authentication
- Client certificates for proof of authenticity
- Certificates with encrypted private keys

Software sealing
After camera configuration is set and should not be changed, system administrators can enable software protection that seals the camera configuration. Any change of the sealing status and any change to static configuration, accidentally or intentional, will break the seal. The camera then sends an alarm message that the video management system can use to start an appropriate alarm scenario. The camera creates a separate log file of all changes that have an effect on the sealing status.
System integration and ONVIF conformance

The camera conforms to the ONVIF Profile S, ONVIF Profile G and ONVIF Profile T specifications. For H.265 configuration, the camera supports Media Service 2, which is part of ONVIF Profile T. Compliance with these standards guarantees interoperability between network video products regardless of manufacturer. Third-party integrators can easily access the internal feature set of the camera for integration into large projects. Visit the Bosch Integration Partner Program (IPP) website (ipp.boschsecurity.com) for more information.

PTZ drive and mechanism

The camera supports 256 pre-positions and two styles of Guard Tours: Pre-position and Record/Playback. The Pre-position tour has capability for up to 256 pre-positions with a configurable dwell time between pre-positions and can be customized as to the order and the frequency that each Pre-position is visited. The camera also provides support for two (2) recorded tours, which have a total duration of 15 minutes of movements. These are recorded macros of an operator’s movements, including pan, tilt, and zoom activities, and can be played back in a continuous manner.

Pan and tilt preset repeatability are accurate to within ±0.1 degrees to ensure that the correct scene is captured every time. The camera delivers maximum pan speed of 300 degrees per second and maximum tilt speed of 200° degrees per second. The camera is capable of manual speeds (pan and tilt) of 0.1 to 120 degrees per second. The camera provides a pan range of up to 360 degrees continuous rotation.

Snap to zoom

Drawing a box in the image will trigger the camera to zoom to the correct position.

Ease of installation and servicing

The camera has been designed for quick and easy installation, a key feature from Bosch IP video products. All housings feature recessed screws and latches for increased tamper resistance.

Bosch designed the camera with the knowledge that field cables and mounts are installed before the camera is mounted. The installation concept allows a single person to connect the cables directly to the camera without re-routing cables. The camera is easily secured to the mount with a single screw. The pendant housings are rated to provide IP66 protection and offer an operating temperature range down to -40 °C (-40 °F). The pendant camera comes fully assembled with a sunshield and ready for wall or pipe applications with the proper mounting hardware (sold separately).

Bosch offers a full complement of hardware and accessories (sold separately) for wall, corner, mast, roof, pipe mount, and in-ceiling applications for indoor and outdoor environments, which allow the camera to be adapted easily to individual site requirements.

Project Assistant

Project Assistant by Bosch is the market’s most easy-to-use app for initial installation and basic configuration of IP cameras. Off-site and without connection to the camera, basic configurations can already be covered and shared with colleagues. On-site, these pre-configurations can simply be pushed onto the camera, making the installation procedure easier and less time consuming. Already configured cameras can be integrated as well. The app allows easy viewing and adjustment of the camera’s field of view. The app automatically generates a comprehensive report of the commissioned cameras.

Certifications and approvals

HD standards

• Complies with the SMPTE 274M-2008 Standard in:
  - Resolution: 1920x1080
  - Scan: Progressive
  - Color representation: complies with ITU-R BT.709
  - Aspect ratio: 16:9
  - Frame rate: 25 and 30 frames/s

• Complies with the 296M-2001 Standard in:
  - Resolution: 1280x720
  - Scan: Progressive
  - Color representation: complies with ITU-R BT.709
  - Aspect ratio: 16:9
  - Frame rate: 25 and 30 frames/s

Marking

Applicable Standard

- cULus
  • UL60950-1/-22 (ed 2) (Includes CSA 22.2 No. 60950-1/-22)

- FCC Part 15 (USA)
  • 47CFR Part 15
  • ICES-003 (Canada)

- CE (Europe)
  • Electromagnetic Compatibility (EMC) Directive
    - EN 61000-3-2:2014
    - EN 61000-3-3:2013

Product Safety: Low Voltage Directive

(IECEE CB scheme certificate and report are required)

- IEC 60950-1/-22 (ed 1)

Other labels / markings

- RCM, EAC, WEEE, China RoHS, BIS

For a full list of all related certifications/standards, refer to the Product Tests Report, available on the online catalog, on the Documents tab of the product page for your device. If the document is unavailable on the product page, contact your sales representative.

---

1. 120 dB WDR measured according to IEC 62676 Part 5.
2. Video content analysis features include Essential Video Analytics and configurations such as Silent VCA / Profile1 - 16.
3. Alarm rules are combinable and include Any object, Object in field, Crossing line, Entering field, Leaving field, Loitering, Following route, Idle object, Removed object, Counter, Occupancy, Crowd detection, Condition change, Similarity search, and Tampering.
4. Object filters allow for customization with Duration, Size, Aspect ratio v/h, Speed, Direction, Color, and Object classes (Upright persons, Bikes, Cars, Trucks).
5. Calibration is automatic self-calibrating when height is set.
6. Pan/Tilt Modes offer Normal: 0.1°/s - 120°/s and Turbo: Pan: 0.1°/s - 300°/s; Tilt: 0.1°/s - 200°/s.
7. Pre-position Speed is 300°/s for Pan and 200°/s for Tilt.
8. Pan Range is 360° continuous, and Tilt Angle is -90° to 0° (Auto-flip 180°).
9. Pre-position Accuracy is ± 0.1° typ.
10. Pre-positions are 256, and Tours include two (2) types of tours: Recorded tours and Pre-position tour.
11. Electrical specifications include Input voltage (24 VAC and PoE+) and Power consumption (14 W (heater off) / 24 W (heater on)).
12. Network features include Video compression (H.265, H.264, M-JPEG), Streaming, Frame rate, IP delay, and Encryption.
13. Resolution and Bitrate are detailed for various frame rates, with tables showing the average typical optimized bitrate in kbits/second.
14. Ethernet specifications are 10/100BASE-T.
15. Encryption supports TLS 1.0, SSL, DES, 3DES, AES.
### Protocols
IPv4, IPv6, UDP, TCP, HTTP, HTTPS, RTP/RTCP, IGMP V2/V3, ICMP, ICMPv6, RTSP, FTP, ARP, DHCP, APIPA (Auto-IP, link local address), NTP (SNTP), SNMP (V1, V3, MIB-II), 802.1x, DNS, DNSv6, DDNS (DynDNS.org, selfHOST.de, no-ip.com), SMTP, iSCSI, UPnP (SSDP), DiffServ (QoS), LLDP, SOAP, Dropbox™, CHAP, digest authentication, Stratocast Genetec

### Interoperability
ONVIF Profile S, ONVIF Profile G, ONVIF Profile T, GB/T 28181

### Local Storage
Memory card slot
Support a memory card with a maximum of 32 GB (microSDHC) / 2 TB (microSDXC) (user-supplied). (An SD card of Class 6 or higher is recommended for HD recording.)

### Miscellaneous
Sector/Titling
16 independent sectors with 20 characters per title
Privacy Masks
32 individually configurable privacy masks
Privacy Masks pattern
Black, White, Gray, Auto (average background color)
Supported Languages
English, German, Spanish, French, Italian, Dutch, Polish, Portuguese, Russian, Japanese, Chinese (simplified)

### Audio
Compression
G.711, 8kHz sampling rate
L16, 16kHz sampling rate
AAC, 16kHz sampling rate
Interface
1/1 Channel In/Out

### User Connections
Power
RJ45 10/100 Base-T PoE+ (IEEE 802.3at, class 4 standard)
21-30 VAC, 50/60 Hz
Alarm Inputs
2
Alarm Outputs
1 relay output 5 VDC, 150 mA max.
Audio
1x mono line in, 1x mono line out
- Signal line in
94 kOhm typical, 1 Vrms max.
- Signal line out
1 kOhm typical, 1 Vrms max.

**NDP-5512-Z30 PTZ 2MP HDR 30x clear IP66 pendant**
IP PTZ dome camera; 1080p60; 30X optical, 4x4 digital zoom; 120dB HDR; starlight imaging; IAE; EVA; PoE; Intelligent Streaming; clear, high-resolution, coated bubble. Dual power options.
Order number **NDP-5512-Z30**

**EWE-AD5HD-IW 12mths wrty ext AUTODOME IP 5000 HD**
12 months warranty extension without moving parts, wear parts are excluded
Order number **EWE-AD5HD-IW**

**NDP-5512-Z30C PTZ 2MP HDR 30x clear in-ceiling**
In-ceiling IP PTZ dome camera; 1080p60; 30X optical, 4x4 digital zoom; 120dB HDR; starlight imaging; IAE; EVA; PoE; Intelligent Streaming; clear, high-resolution, coated bubble. Dual power options.
Order number **NDP-5512-Z30C**

**EWE-AD5HD-IW 12mths wrty ext AUTODOME IP 5000 HD**
12 months warranty extension without moving parts, wear parts are excluded
Order number **EWE-AD5HD-IW**
**Accessories**

**UPA-2450-50 PSU, 220VAC 50Hz, 24VAC 50VA out**
Indoor power supply for camera. 220 VAC, 50 Hz in; 24 VAC, 50 VA out
Order number UPA-2450-50

**UPA-2450-60 PSU, 120VAC 60Hz, 24VAC 50VA out**
Indoor power supply for camera. 120 VAC, 60 Hz In; 24 VAC, 50 VA out
Order number UPA-2450-60

**NPD-6001B High PoE midspan**
High PoE Midspan, 60 W, single port, AC in
Order number NPD-6001B

**NDA-U-PA0 Surveillance cabinet 24VAC**
Surveillance cabinet, 24 VAC input, 24 VAC output, IP66
Order number NDA-U-PA0

**NDA-U-PA1 Surveillance cabinet 120VAC**
Surveillance cabinet, 100 - 120 VAC 50/60 Hz input, 24 VAC output, IP66
Order number NDA-U-PA1

**NDA-U-PA2 Surveillance cabinet 230VAC**
Surveillance cabinet, 230 VAC input, 24 VAC output, IP66
Order number NDA-U-PA2

**NDA-U-CMT Corner mount adapter**
Universal corner mount, white
Order number NDA-U-CMT

**NDA-U-PMAL Pole mount adapter large**
Universal pole mount adapter, white; large
Order number NDA-U-PMAL

**NDA-U-PMAS Pole mount adapter small**
Pole mount adapter small
Universal pole mount adapter, white; small.
Order number NDA-U-PMAS

**NDA-U-PMT Pendant pipe mount, 12" (31cm)**
Universal pipe mount for dome cameras, 31 cm, white
Order number NDA-U-PMT

**NDA-U-PMTE Pendant pipe extension, 20" (50cm)**
Extension for universal pipe mount, 50 cm, white
Order number NDA-U-PMTE

**NDA-U-PSMB Pendant wall/ceiling mount SMB**
Surface mount box (SMB) for wall mount or pipe mount.
Order number NDA-U-PSMB

**NDA-U-WMP Wall mount plate**
Back plate for universal wall mount, corner mount and pole mount, white, IP66
Order number NDA-U-WMP

**NDA-U-WMT Pendant wall mount**
Universal wall mount for dome cameras, white
Order number NDA-U-WMT

**NDA-U-RMT Pendant parapet mount**
Universal roof mount for dome cameras, white
Order number NDA-U-RMT

**LTC 9230/01 Roof mount adapter**
Flat Roof Mount Adapter for mounting a unit in an upright position on a flat surface.
Order number LTC 9230/01

**VGA-IC-SP Suspended ceiling support kit, 7"**
Suspended ceiling support kit for dome cameras. Aperture Ø177 mm (Ø7 in). Maximum supported weight 11.3 kg (25 lb).
Order number VGA-IC-SP

**MNT-ICP-ADC Drop ceiling suppport kit for AUTODOME**
Suspension ceiling support kit for AUTODOME IP 4000/5000/7000 AND VG5-100/600 series in-ceiling cameras.
Order number MNT-ICP-ADC

**NDA-4020-PLEN Plenum box for PTZ dome**
In-ceiling housing for plenum spaces for AUTODOME IP 4000i and AUTODOME IP 5000i cameras. Available in specific regions only.
Order number NDA-4020-PLEN

**NDA-5020-PTBL Tinted bubble for PTZ dome**
Tinted bubble for pendant models of AUTODOME IP 5000i cameras.
Order number NDA-5020-PTBL

**NEZ-A5-BUB-CTIP Bubble, tinted, for in-ceiling model**
Tinted bubble for in-ceiling models of AUTODOME IP 5000i cameras.
Order number NEZ-A5-BUB-CTIP
