DCN-FVCRD Flush Voting ID Card Panel

- **Stylish and modern design (IF award)**
- **Identification with ID card**
- **External Present contact**
- **LED vote confirmation indicators**
- **LED unit active indicator**

The Flush Voting ID Card Panel has the same functionality as the Flush Voting Panel (DCN-FV) with the addition of an ID card reader.

The ID card reader enables identification of delegates to the DCN Next Generation system, as well as providing a convenient facility that ensures only authorized delegates can participate in voting sessions or general conference proceedings such as microphone use. The unit is connected to the Dual Delegate Interface DCN-DDI.
