

# DCN-FVUZHS-CN Flush Chinese voting device, silver

www.boschsecurity.com

**BOSCH**  
Invented for life

- ▶ Stylish and modern design (IF award)
- ▶ Colored voting buttons
- ▶ Chinese text
- ▶ Direct loop through connection to the DCN network
- ▶ Allows parliamentary voting

The unit is used for attendance registration, parliamentary voting and for/against voting. It is provided with colored voting buttons and Chinese text. The texts are: present, yes, no and abstain and the colors are respectively: white, green, red and yellow. The yellow LED confirmation indicators are used to prompt the user to indicate presence and to vote and to confirm registration of what is voted. The blue LED unit active indicator shows that the system is in normal operation. The blue LED flashes when the unit detects a communication fault.

The combination of the voting unit with the end caps forms a very stylish design, which fits in both modern and traditional meeting rooms. The direct connection to the DCN network cable is an economic solution for positions that only require voting facilities.

- One unit active indicator. A constantly lit blue LED indicates that the system is in normal operation. The blue LED flashes when the unit detects a communication fault

#### Back

- One de-init/init button

#### Interconnections

- 1 m (39.4 in) DCN cable terminated with a molded six-pole male circular connector
- 1 m (39.4 in) DCN cable terminated with a molded six-pole female circular connector for loop-through connection to the DCN network

#### Notice

An unused output cable must be terminated by an LBB4118/00 Termination Plug.
