

# DCN-SWDB-E Delegate database license

www.boschsecurity.com

**BOSCH**  
Invented for life

- ▶ Comprehensive database information for all delegates
- ▶ Re-use of delegate information across meetings
- ▶ Define vote and microphone authorization for each individual participant

The DCN-SWDB-E Delegate database license allows users to compile a comprehensive database of information relating to delegates. During the meeting preparation stage the delegates can be assigned to the meeting as participants. The advantage of this method is that delegates participating in multiple meetings only need to be entered once and can be assigned to any desired meeting without re-entering the same delegate information again.

## Functions

### Database

All information is entered via the configuration application, before or during conference proceedings. A considerable amount of data can be specified for each conference participant. All delegate specific information like: delegate name, delegate country, delegate group and delegate unit display language, can be re-used and does not need to be re-entered for every meeting.

At meeting preparation it is possible to grant or deny authorization to individual delegates in a specific meeting for microphone, and voting use; also the voting weight can be defined.

### Data Input

All delegate information is input via the configuration application. For some entries (first name, last name) the only restriction is the number of characters entered. For other entries (country, group, etc.), the input can easily be selected from a list of options that is presented by the system. This option list is automatically controlled by the system. When the user enters a text it is automatically added to the list.

### User rights

By defining the correct user rights a delegate information entry PC client can be created. This entry client can be placed at the lobby of a conference hall entrance, where the registration officer can enter delegate information and assigning the delegate to the desired meeting.

## Parts included

Quantity	Component
1	E-mail with license activation information

## Technical specifications

DCN NG: DCN-SW-E	DCN-SW-E is required before you can use this license
------------------	--

## Ordering information

### DCN-SWDB-E Delegate database license

DCN Next Generation conference software delegate database. To be used with DCN-SW-E.  
Order number **DCN-SWDB-E**
