

DCN-SWSMD-E Streaming meeting data license

www.boschsecurity.com

BOSCH
Invented for life

DCN-SWSMD-E Streaming meeting data license is an interface to provide meeting data such as current speakers, request lists, vote results and other information to video screens or video projectors.

System overview

DCN-SWSMD-E Streaming meeting data license, unlike other Conference Software modules, does not require any user interaction of an operator; it consists of a software interface from the Conference Software Server to any number of client applications.

The interface consists of streams containing meeting data in XML format. Every time an activity (e.g. microphone on/ off, start/stop vote) takes place data is sent over the XML stream.

The stream can be picked up by a video client application which is connected to a video screen or a video projector to display the meeting data.

The content of each stream can be freely defined so that each PC software Client receives only the required meeting data.

The streams are protected meaning that only authorized PC software clients can receive the streams.

- ▶ XML streams for easy processing and logging
- ▶ Interface to video client applications to display meeting data by using video screens or video projectors
- ▶ Video client application available on DCN-SW DVD
- ▶ Example C-Sharp source code available on DCN-SW DVD
- ▶ Software developer manual available

Functions

A great diversity of activities can be streamed. The main items are:

- Start/Stop meeting, speakers list, request list, vote results both Individual and totals, participating delegates.
- Filters are available to define the content of a stream; e.g. if only voting activity is required in the stream all other information can be filtered out.
- Activities are queued before they are sent to the stream. The size of the queues are free definable.
- Client authorization is controlled by a list of allowed IP addresses. Clients with unknown IP addresses will not be able to receive the stream.
- Example C-Sharp source code and software developer manual available on DCN-SW-E DVD

Parts included

Quantity	Component
1	E-mail with license activation information

Technical specifications

DCN NG: DCN-SW-E

DCN-SW-E is required before you can use this license

Ordering information

DCN-SWSMD-E Streaming meeting data license

DCN Next Generation conference software streaming meeting data for providing data such as current speakers, request list, voting results and other information to video screens or video projectors. To be used with DCN-SW-E.

Order number **DCN-SWSMD-E**

Software Options

DCN-SW-E Main module software license

DCN Next Generation conference software main module, a platform for running all other Conference software modules, electronic authorization code.

Order number **DCN-SW-E**
