DIVAR network 3000 recorder

Connect this recorder to a maximum of 32 IP cameras that use the latest H265/H264 high-resolution video technology and state-of-the-art compression techniques. These advanced technologies, coupled with efficient network data transmission, deliver the high security and reliability required for modern surveillance systems. Simultaneous remote or local monitoring, recording, archive and playback functions are guided by simple menu selections and operator commands. The recorders can be installed with a maximum of 2 internal HDDs for video storage. Another option is a single HDD for storage, plus a DVD burner for video export.

Functions

Latest video compression technology
The DIVAR supports H.264 and H.265 video compression technology. This technology dramatically reduces bandwidth and storage requirements while still delivering superb image and audio quality. Equipped with this newest video technology, DIVAR gives you the full benefits of the latest high-resolution cameras. The proof is in the pixels.

Camera IP support
The recorder supports native camera integration with Bosch IP cameras which provides easy installation, configuration and maintenance options. This allows plug-and-play connectivity as the installer can connect and configure the cameras to the recorder without having to open every camera individually on a web client. For further configuration 3rd party cameras are supported through the ONVIF Profile S protocol.

Simultaneous record and view
The DIVAR records multiple video and audio signals while simultaneously providing live multi-screen viewing and playback. Comprehensive search and playback functions provide quick recall and viewing of recorded video. The DIVAR has a real-time display resolution of 1080p for 16 channels simultaneously, or 4K for 4 channels.

PoE+ switch
The recorders with a built-in PoE+ switch can supply power to a maximum of 16 connected cameras. Each camera automatically receives its IP address from the recorder for simple plug-and-play operation.

Simple operation
The DIVAR is very easy to install and use. Simply connect the cameras, apply power, and follow the simple Install Wizard steps for initial setup. The unit can then record automatically with no further intervention required.

DDNS
Bosch offers its customers free Dynamic Domain Name Services (DDNS) for access to network-connected devices via a "friendly" hostname without the need for costly static IP addresses. This makes it easier for uninterrupted access to important video from devices regardless of their location.

Alarms
All models have extensive alarm handling functions and telemetry control. Alarm functions include local inputs and relay outputs, plus motion detection in user-defined areas. If an alarm is detected, the DIVAR can:
 • send an e-mail notification and/or FTP push
• sound a buzzer and/or display a warning
• activate local alarm output

Local control
The unit can be easily operated and programmed via the on-screen display menu system using:
• the supplied mouse
• the front panel control keys
• the supplied remote control
• push notification

Inputs and outputs
Video inputs, audio inputs/output, and alarm inputs/outputs are located on the rear panel.
Two video connectors (VGA/HDMI) provide simultaneous output for monitor A for live display (with zoom) and playback (display can be frozen and zoomed). The displays allow full-screen, multi-screen, and sequenced viewing.

Dome control
The DIVAR can control pan/tilt/zoom (PTZ) equipment using commands sent via IP connection. It also supports Focus, Iris and Aux commands for Bosch cameras.

Panoramic cameras
The DIVAR supports dewarping of Bosch panoramic cameras. The following modes are supported: pan/tilt/zoom (PTZ), panoramic, corridor and quad. Dewarping in the camera can also be selected if the connected IP panoramic camera supports this.

Network control
Use the PC software or built-in web application via a network for live viewing, playback, and configuration.

Watermark
The DIVAR includes an authenticity check for both local and remote archives, ensuring recording integrity. An Archive Player is provided for playback of secure video files and to check if video is authentic.

Smartphone App
A DIVAR Mobile Viewer app from Bosch for iOS and Android devices is available for:
• live and playback viewing
• recorder configuration
• PTZ control
This means you can watch live video from cameras connected to the DVR from anywhere in the world. You can also control focus, pan, tilt and zoom on PTZ-enabled cameras.
Furthermore, the Android smartphone App supports remote push notifications (no available on iOS). In this way you are automatically notified if an alarm occurs on the device and can take immediate action, even if you are not actively monitoring the system at that moment.

### Installation/configuration notes

**Fig. 1:** DIVAR 3000 network back panel (no PoE)

- RJ45 video input for max. 32 IP cameras connected via external switch (optional with DHCP configuration)
- RJ45 Ethernet connection (10/100/1000Base-T according to IEEE802.3)

**VGA MON.A**
1 D-SUB (Monitor output)

**HDMI MON.A**
1 HDMI (Monitor output)

**ALARM IN**
4 screw terminal inputs, cable diameter AWG26-16 (0.4-1.29 mm)

**ALARM OUT**
2 screw terminal outputs, cable diameter AWG26-16 (0.4-1.29 mm)

**AUDI O OUT**

**Fig. 2:** DIVAR 3000 network back panel (16 PoE)

- PoE
  Max. 16 PoE ports (115 W; 25.5 W max. per port) connected with DHCP configuration (max 32 IP cameras)
- RJ45 Ethernet connection (10/100/1000Base-T according to IEEE802.3)

**VGA MON.A**
1 D-SUB (Monitor output)

**HDMI MON.A**
1 HDMI (Monitor output)

**ALARM IN**
4 screw terminal inputs, cable diameter AWG26-16 (0.4-1.29 mm)

**ALARM OUT**
2 screw terminal outputs, cable diameter AWG26-16 (0.4-1.29 mm)

**AUDI O OUT**

**IC IN**
1 RCA (Audio input)

**RS-485**
Screw terminal output

**RS-232**
DB9 male, 9-pin D-type (for service)

One USB (3.0) connector for mouse or USB memory device; one USB (2.0) also on front panel

**Power input with On/Off switch**
12 VDC (5 A)
AC input adapter: 100-240 VAC, 50-60 Hz, 1.5 A

### Technical specifications

### Alarms and detections

- **Motion detection set by camera**
  - Essential or Intelligent Video Analytics (IVA), Motion +
- **Alarm activations**
  - Video loss, motion detection, input alarm, system alarm
- **Events triggered by alarm**
  - Recording, PTZ movement, alarm out, email, buzzer, screen message, Mon A and B activated, mobile push notification
- **Inputs**
  - 4 inputs configurable NO/NC, max. input voltage 12 VDC +/- 10%
- **Outputs**
  - 2 relay outputs
- **Relay contact**
  - Max. rated, 30 VDC, 2 A continuous or 125 VAC, 1 A (activated)

### Exporting

- **DVD (optional)**
  - Built-in DVD+R/RW writer
- **USB**
  - Flash memory or external HDD (FAT32)
- **Network**
  - Web Client software or Video Client

### Playback

- **Multi-channel**
  - Simultaneous 1/4/9/16 channels
- **Mode**
  - Forward, reverse, slow play, fast play, frame-by-frame
- **Search**
  - Time, channel, type, smart
- **Network**
  - Video Client, Web client, App
- **Restrict**
  - Restrict video by user rights for viewing
- **Protection**
  - Protect video against overwriting
- **Retention time**
  - Automatically delete recordings after 1 to 365 days

### Recording

- **Decoding compression**
  - H.265/H.264/MJPEG
- **Speed**
  - Max. 60 IPS per channel, configurable
- **Bit rate**
  - 16 kbps to 24 Mbps per channel
- **Record interval**
  - 1~120 min (default: 60 min), Pre-record: 1~30 sec, Post-record: 10~300 sec

**Ordering information**

- **DDN-3532-200N00 Recorder 32ch, no HDD**
  - High-resolution recorder for network surveillance systems.
  - Recorder 32ch w/o HDD
  - Order number [DDN-3532-200N00 | F.01U.321.915]

- **DDN-3532-200N16 Recorder 32ch, 16PoE, no HDD**
  - High-resolution recorder for network surveillance systems.
  - Recorder 32ch w/o HDD 16PoE
  - Order number [DDN-3532-200N16 | F.01U.321.916]

- **DDN-3532-212N00 Recorder 32ch 1x2TB**
  - High-resolution recorder for network surveillance systems.
  - Recorder 32ch 1x2TB
  - Order number [DDN-3532-212N00 | F.01U.329.371]

- **DDN-3532-212N16 Recorder 32ch 1x2TB 16PoE**
  - High-resolution recorder for network surveillance systems.
  - Recorder 32ch 1x2TB 16PoE
  - Order number [DDN-3532-212N16 | F.01U.329.373]

- **DDN-3532-112D16 Recorder 32ch 1x2TB 16PoE DVD**
  - High-resolution recorder for network surveillance systems.
  - Recorder 32ch 1x2TB 16PoE DVD
  - Order number [DDN-3532-112D16 | F.01U.329.382]
