

ATE X.25 (Installation Module) Alarm Receiver

www.boschsecurity.com

BOSCH
Invented for life

- ▶ Receipt via the X.25 network
- ▶ VdS 2465 transmission protocol
- ▶ Connection to receiving stations with X.25 access
- ▶ Installation module for UGM 2020-EAPS6

The ATE X.25 is installed in the UGM 2020 control panel and is responsible for transmitting and receiving the VdS 2465 protocols via the data transmission services network (X.25).

Functions

Alarm messages (VdS 2465 protocol) are transmitted on the ISDN network (X.31) with transfer to the data transmission services network (X.25) and received by the ATE X.25 of the receiving station. The ATE X.25 is programmed via the BasiLoad.exe programming software.

Certifications and approvals

Country	Approval	ATE X.25
DE	BZT	D 131315 J
EU	BZT	D 131314 J

Installation/configuration notes

Max. 64 subscribers can be connected to an ATE X.25.

ACCESS \geq 100 of Telekom must be applied for. The Telekom business connection (data transmission services) is prerequisite for the X.25 access. Telekom (Germany) provides the data network connection device DNG. The ATE X.25 can be installed in the UGM 2020 EPC3 / \geq EAPS6. For the installation of each installation module in a UGM, an SGK is a prerequisite.

Notice

Not included in the scope of delivery are:
Programming cable (laptop)
X.25 (DNG/XTA) interface cable
Telekom's DNG

Parts included

Type	Qty.	Component
ATE X.25 installation module	1	ATE installation module on component carrier UGM 2020, incl.: - SGK-XTA interface cable - Power supply cable - Fitting panel for XTA in UGM - Split ferrite sleeve

Technical specifications

ATE X.25 installation module

Supply voltage	+5 V
Current consumption in operation	500 mA
Environmental conditions	
• Ambient temperature	(0°C to +50°C)
• Environmental class	II
• Protective system	IP 30
• Protection class	II
