This Delegate Unit with Voting enables participants to speak, register a request-to-speak, listen to the speaker and vote. A socket is provided to connect the pluggable microphones (DCN-MICS and DCN-MICL, to be ordered separately). The unit has five voting buttons for all types of voting. The yellow indicator rings around the voting buttons are used to prompt users to register their presence, to start voting and to confirm their votes. When the unit’s attendance LED is yellow, it indicates the delegate is present.

**Functions**
- Headphone output level reduction to prevent acoustic feedback (active when listening to the floor and when the microphone is on)
