

ISW-BSR1-BAT Outdoor Siren Battery Pack

www.boschsecurity.com

BOSCH
Invented for life

The ISW-BSR1-BAT Battery pack supplies a high, stable operating voltage with a high minimum voltage during pulsing. It is over-current protected. The battery pack has two cells. One cell powers the siren and LED. The other cell powers the wLSN module.

Notice

Fire, explosion, and severe burn hazard. Do **not** recharge, crush, disassemble, heat above 100°C, incinerate, or expose contents to water.

Possible (without leakage): -55°C to +100°C

Ordering information

ISW-BSR1-BAT Outdoor Siren Battery Pack

Provides high, stable operating voltage with high minimum voltage during pulsing
Order number **ISW-BSR1-BAT**

Certifications and approvals

The battery cells are compliant with the IEC 86-4 safety and EN 50020 intrinsic safety standards and have obtained Underwriters Laboratories (UL) component Recognition (File Number MH 28717).
