

DETECTION YOU CAN DEPEND ON

Wall mount Ceiling mount Outdoor

Motion detectors

Bosch motion detectors offer excellent catch performance and the highest level of immunity from costly false alarms. They raise the bar for reliability and rapid detection, are easy to install and built to last.

Excellent catch performance

- Best wall-to-wall coverage pattern
- Instant response from the first step
- Identifies intruders at any temperature

TriTech

- PIR + Microwave Doppler radar**
Reliable detection under challenging environmental conditions
- Cloak and Camouflage Detection Technology**
Maximizes catch performance against intruders who attempt to cover their infrared signal

Wall mount (indoor)

- Blue Line Gen2 Series (PIR and TriTech*)**
12m range, Up to 45kg pet immunity
- Commercial Series TriTech***
15m range
- TriTech* TriTech Anti-mask***
15m range

Ceiling mount (indoor)

- Panoramic PIR (360 degrees)**
7m-18m range
- TriTech* (360 degrees)**
14m range

Outdoor

- TriTech* (15m)**
15m range, 35°C to +54°C

Highest level false alarm immunity

- Sealed optical chamber
- Selectable sensitivity (PIR High/Low)
- Selectable pet immunity

TriTech

- Microwave Noise Adaptive Processing

Built to last

- Ease of installation (-45%)
- High quality optics and electronics
- Sealed enclosure

*All TriTech E models available in EMEA have 8 years warranty
