BOSCH

Release Letter

Product:	*DIVAR IP 2000 Family*
Version:	*Software version 03.62.0023* *Update for DIP-2040EZ-00N, DIP-2042EZ-4HD and DIP-2042EZ-2HD*

This letter contains latest information about the above mentioned Bosch DIVAR IP 2000 Family software version.

1. General

DIVAR IP 2000 is an affordable, easy to use all-in-one recording management solution for network surveillance systems of up to 16 channels (all channels pre-licensed).

Running the full Bosch recording solution including the Video Streaming Gateway to integrate 3rd party cameras, DIVAR IP 2000 is an intelligent IP storage device that provides both, a professional video recording solution and ease of operation.

DIVAR IP 2000 is a 4-bay mini tower unit that combines advanced management and state-of-the-art recording management into a single cost-effective, plug and play IP recording appliance for IT-minded customers which are seeking for a state-of-the-art "second generation" DVR and NVR recording solution.

- The system comes with the following network settings

  Default
  - o IP Settings: automatically obtained from DHCP server
  - o Computer name: mydivar

  Fallback
  - o IP Address: 192.168.0.200
  - o Subnet mask: 255.255.255.0

  Remote access
  - o Port of web interface / recording system: 80 (http), 443 (https)
  - o Support of Bosch Remote Portal
  - o Supported DDNS services: dyndns.org, no-ip.com, selfhost.com

- Initial installation
  - o The system is designed for remote operation and web based configuration. No monitor, mouse and keyboard need to be used. Only network and power connection is required for setup and operation.
  - o Configuration Wizard can be accessed via the following URL: http://mydivar
  - o The IP Helper application can be used as a fallback option for network configuration. It can be obtained from http://mydivar.com

2. New subcomponent software versions

- DIVAR IP software 03.62.00.23
    - o CameraFirmwareFile 06.40.07.19
    - o DiskManagementService 03.62.00.08
    - o MpegActiveX 06.01.00.60
    - o TranscoderService 06.40.00.53
    - o VRM 03.62.00.23
    - o VSG 06.40.00.53

3. Changes

New Features
- N/A

Bugfixes
- Fixed: CVE-2019-1181/1182 – RDP Remote Code Execution
- Fixed: unencrypted Telnet via VSG

4. Restrictions and known issues
