# 1 Overview

MTSW is a professional multimedia alarm processing and management software exclusively developed by Bosch.

MTSW connects with Multi-Tenant System (MTS), D6600/D6100 receivers, DS7400 series control panels, B/G series control panels and Video Door Phone (VDP) system.

# 2 Installation notes

- Order MTSW latest client version, and install MTSW through the installation CD.
- Go to website ( <https://www.boschsecurity.com> ), select a country/region, and search MTSW, then download installation package from your desired client version to install.

# 3 Version 2.0

## System requirements:

CPU - Intel PIII 2.4 GHz or higher

Hard disk - 30 G or more

Memory - 8 G RAM, higher is preferable

Operation system - Microsoft Windows 7/8/10 (32/64 bit)

Microsoft .NET Framework 4.5.2 (only for Windows 7) - Download Microsoft .NET Framework 4.5.2 from Microsoft website and install it manually if Microsoft .NET Framework higher version has been installed in the computer.

## 3.1 What's new

Added support to B/G series control panels (firmware version 3.10 and higher).

## 3.2 Upgrade considerations

If an earlier version of MTSW was previously installed, you must obey the following steps:

1. Back up MTSW data with the MTSW System Maintenance Tool.
2. Perform an upgrade installation to MTSW V2.0.
  - For MTSW versions earlier than V1.30.01, the software dongle (Sentinel System Key) need to be replaced.
3. Restore MTSW data with the MTSW System Maintenance Tool.
