

## WE800EV2KIT WE800EV2 433MHZ RX WITH 2X4 BUTTON FOB

The WE800EV2KIT is an RF arming kit that is designed to provide a convenient ON / OFF control for the Solution 8xx and Solution 2000 / 3000 / 4000 series control panels. Provision is available for the control of up to two external devices via the onboard relays.

### Parts included

Quantity	Component
1	WE800EV2 receiver
2	Keyfobs
1	Hardware pack
1	Installation guide

### Technical specifications

#### Receiver

Operating voltage (3-pin connector)	5 VDC from control panel
+12V relay terminal	9 - 15 VDC
Current consumption	4.5 mA standby 45 mA for both relays operating
Relay rating	SPDT 1 Amp maximum carry @ 12 VDC
Reverse polarity protection	No

- ▶ Code Hopping RF security
- ▶ Easy installation
- ▶ Superheterodyne receiver (less interference)
- ▶ Robust attractive keyfobs
- ▶ Two onboard programmable relays

Operating frequency	433.92 MHz
Receiver type	Superheterodyne AM ASK
Bandwidth	250 KHz
Antenna	165 mm Aluminium wire
Keyfob storage	EEPROM maximum 21 keyfobs

#### Keyfob

Operating voltage	3 V Lithium battery CR2032 x 2
Operating frequency	433.92 MHz
Bandwidth	380 KHz
Tuning	SAW resonator locked
Channels	4
Weight	24 g, including batteries
LED indicator	Blue

### Ordering information

#### **WE800EV2KIT WE800EV2 433MHZ RX WITH 2X4 BUTTON FOB**

The kit includes 1 receiver and 2 keyfobs.  
Order number **WE800EV2KIT | F.01U.271.805**
