BOSCH
Invented for life

▶ Small ergonomic design with protected, recessed buttons

▶ Energy saving power-down mode until a button is pressed

▶ Two programmable buttons can be used for lights, garage doors, or duress

▶ Two LEDs (one red, one green) for status; another (high-intensity blue) LED for use as a flashlight

▶ Supervised for low-battery condition

The wLSN Key Fob allows remote arming and disarming of a secure area. This key fob has two additional buttons that can be programmed to allow the user to control lights or garage doors and to provide a duress signal. Two status LEDs (one red, one green) indicate status and a high-intensity blue LED operates as a directional close-contact flashlight.
