1 Introduction

These Release Notes are for the B426-M with firmware version B426M_3.10

**Notice!**

Firmware version B426M_3.10 is exclusively for the B426-M only. Do not install this firmware version on the B426, or B426-CN/B429-CN.

1.1 Requirements

B426-M supports the following control panels:

Compatible control panels

AMAX 2000/2100/3000/4000 (v2.0+)
Solution 2000/3000 (v2.0+)

2 Firmware version 3.10

What's fixed

- *Updates to the web server, page 5*
- Security of Connected Devices

2.1 What's fixed

This section examines the fixed issues of this firmware version.

2.1.1 Updates to the web server

This firmware release contains updates to improve the security/access of the webserver during login. Improvements allow for one user to have access during the login process of the webserver.

2.1.2 Security of Connected Devices

In order to comply with the Security of Connected Devices Act, this product uses a unique web access password. The passcode for web access to this product must match the unique passcode of the product.

Make sure your operator uses the unique passcode that is labeled on the product and included on a special notification card in the box of the product.

3 Open Source software 3.10

Bosch includes the open source software modules listed below in the firmware for this module. The inclusion of these modules does not limit the Bosch warranty.

Time routines
