1 Introduction

These Release Notes are for the B450-M with firmware version 3.10

**Notice!**

Firmware version B450-M_3.10 is exclusively for the B450-M only. Do not install this firmware version on the B450, or B450-CHI.

1.1 Requirements

B450-M (with inclusion of a B44x Cellular Communicator module) supports the following control panels:

Compatible control panels

| |
|----------------------------------|
| AMAX 2000/2100/3000/4000 (v2.0+) |
| Solution 2000/3000 (v2.0+) |

2 Firmware version 3.10

2.1 What's fixed in 3.10.100

This section examines the fixed issues of this firmware version.

2.1.1 Communication issues

Under certain conditions, the B450-M may lose communications and require a reset to re-establish communications. Firmware version B450-M_3.10.100 attempts to automatically reset the B450-M and re-establish communications. This may reduce the need for a technician to travel on site to reset the B450-M.

Please refer to the B450/B450-M Installation and Operation Guide for more information on installing firmware updates using TeraTerm.

2.2 What's fixed in 3.10.030

This section examines the fixed issues of this firmware version.

2.2.1 Communication issues

Under certain conditions, such as poor cellular signal quality or a noisy RF environment, the B450-M and cellular module could become unresponsive while communicating to the cloud and RSC+ mobile app. This may require a power reset to restore proper operation. Firmware version B450-M_3.10.030 resolves these issues when installed.

Please refer to the B450/B450-M Installation and Operation Guide for more information on installing firmware updates using TeraTerm.

2.2.2 Data consumption

Under some circumstances the B450-M can cause additional cellular data consumption while communicating to the cloud and RSC+ mobile app. This firmware resolves this issue.

3 Open Source software 3.10

Bosch includes the open source software modules listed below in the firmware for this module. The inclusion of these modules does not limit the Bosch warranty.

Time routines
