## Instructions

Issue     5.0.1

Topic     **Installation of BIS from downloaded ZIP files**

Description     Steps to install BIS 5.0, plus the service pack for BIS 5.0.1, from
ZIP files downloaded from the online product catalogue.
Includes instructions for the mandatory patch CVE-2023-29241

1. Download both the ZIP files marked "mandatory". Each contains a folder called **_Install**.
2. Download the ZIP file for the language that you wish to install. This also contains a folder called **_Install**.
3. Unpack all these **_Install** folders into the same **_Install** folder.
4. You should obtain a similar folder hierarchy to the one illustrated, whereby your language folder may vary (here **1033_en** i.e. English).

5. With administrator rights, execute **setup.exe** in the **_Install** folder.
6. Follow the instructions given by the installation program and the Quick Installation Guide.

## Mandatory patch for updating the Cybersecurity Guideline document

After installing BIS 5.0, update the Cybersecurity Guideline document. For this purpose, a file named `BIS_5_0_21100_0_Patch1.zip` is available from the product catalog and the download server, in the BIS 5.0 section.
